

3rd NEWSLETTER

Braila, Romania, 12th and 13th of June 2017

12th of June 2017

The third meeting took place in Romania, Braila on 12th and 13th 2017. The participants of the project from Turkey, Portugal, Italy, Spain, Greece and, of course, from Romania had their interesting exchange of experience at "Grigore Moisiu", High School – Braila.

During the first day, after a friendly welcome of the school manager, the teachers and the students, the international group visited the school, the classrooms, IT lab, the gym and the administrative offices. At the end of the visit, after a coffee break, the representatives of the project widely discussed about the project.

After lunch, during the afternoon, some students, under the direction of the teachers', showed the development of their project: "KEYPAD MODULE & KIT and DOT MATRIX DISPLAY & MODULE".

Different kind of softwares were used to make the electric schemes:

- Orcad
- Eagle
- Protel
- Altium Designer

The software used to program PIC 16F84 were:

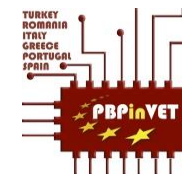

- PBPro for PICs
- MPLAB

Co-funded by the
Erasmus+ Programme
of the European Union

Programa Erasmus + - KA2 - Strategic Partnerships for vocational education and training
"Teaching and learning microcontrollers via PicBasicPro (PBP) language in VET"
Project No: "2016-1-TR01-KA202-033963"

13th of June 2017

During the second day, the participants, after the agreement of the dates of the next meetings, went to the City Hall to meet the Mayor of Braila. The Erasmus+ group explained the meaning and the importance of this project and finally made some questions to the Mayor about the conduction of the city.

After lunch there were important cultural and social activities, the participants knew the Greek, Italian and Turkey communities in Braila, an interesting example of civil cohabitation among different cultures.

At the end of the day there was the evaluation and the delivery of the certificates of participation at the third meeting, given by the school manager, Alexandru Dita and planting an Erasmus+ tree.
